

Download Instructions for THE POODLE v1.3.0 (Minecraft 1.3.2 recommended but not required)

1. Go to the below web address.
<http://minecraftcenter.yolasite.com/>
2. Click on the tab labeled "The Poodle".
(Top right corner)
3. Copy and go to download link. The
mediafire link works best.
4. Download the file to your desktop.
5. Open google.com or another search engine
and search for: winrar
6. You should see a link that says:
<http://www.win-rar.com/download.html?&L=0>
7. Click that link and under the "If you
don't know what you are looking for then
you are probably looking for this:" there
is a linked file called: WinRAR 4.20
English 32bit. Click that link. Save the
file to the desktop.
8. If the file is an installer, run it.
Then, after installation, right click on
"The Poodle" file from steps 3-4. Under
the popup menu that opens click "Open
with"
9. Click "Choose Default
Program" If a File Type
Assistant window pops up,
click on the "Open using
already installed software"
box, then OK.
10. A new window called "open
with" should pop up. Under
"Recommended Programs" you should see the
icon for winRAR. It may be under the
"Other Programs" tab, opened by pressing
the down arrow next to the line labeled
"Other Programs"

If WinRAR pops up under “Recommended Programs”

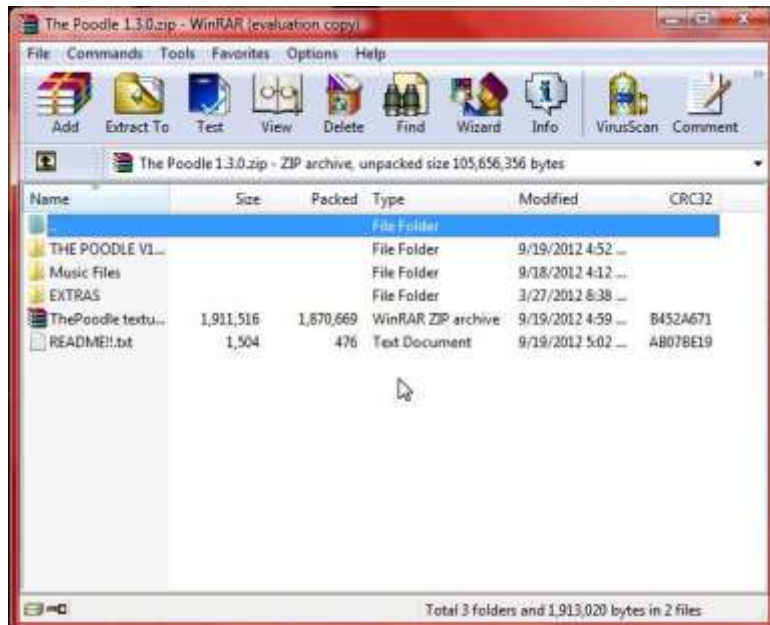

Step one if WinRAR **DOES NOT** appear under “Recommended Programs”

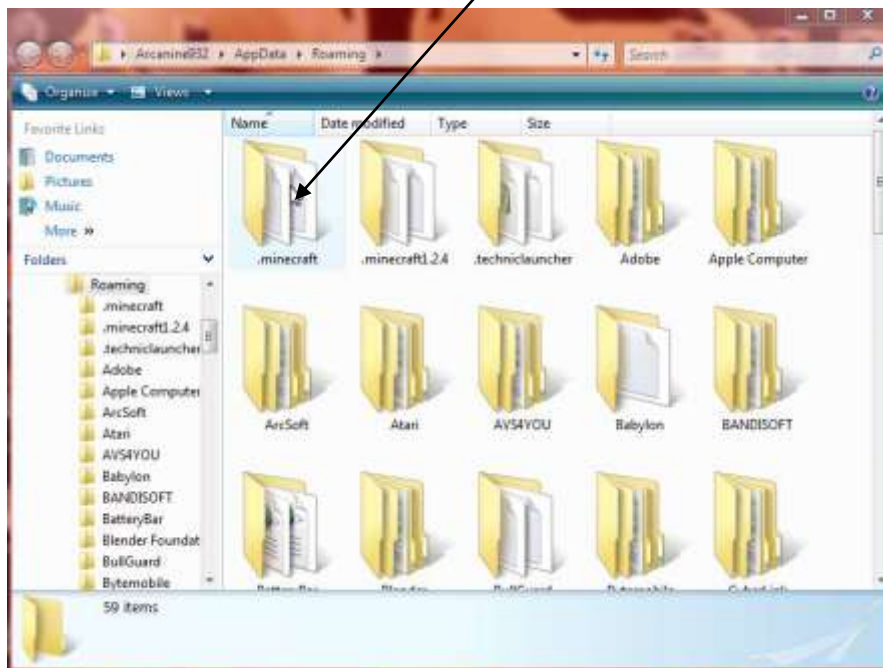

Step two if WinRAR **DOES NOT** appear under “Recommended Programs” You should see WinRAR under the “Other Programs” line.

11. If you had problems with the last step, look up a video on YouTube on how to install WinRAR.

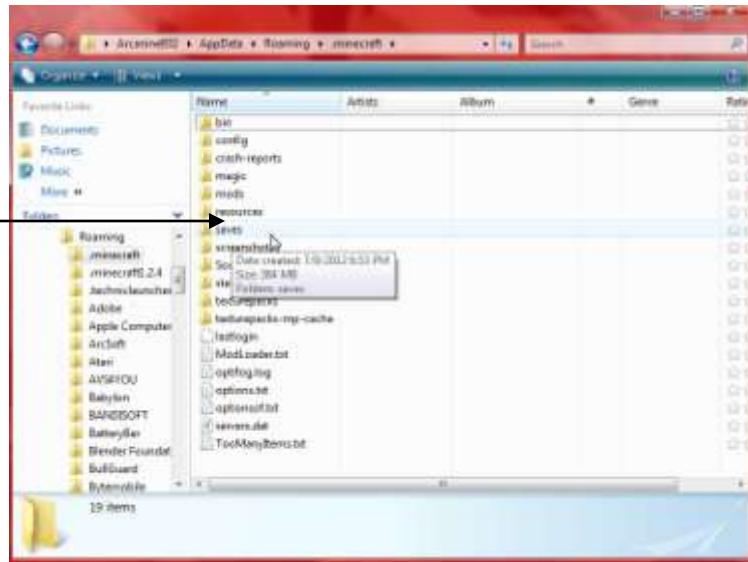

12. If the installation was a success, than you should see that screen. → This is where the Adventure Map, texture pack, and other items are held. Minimize that screen.

13. Click "Start". In the search or Run bar (Ctrl+R) type %appdata%. Press the Enter key. You should see something like this. click the ".minecraft" folder.

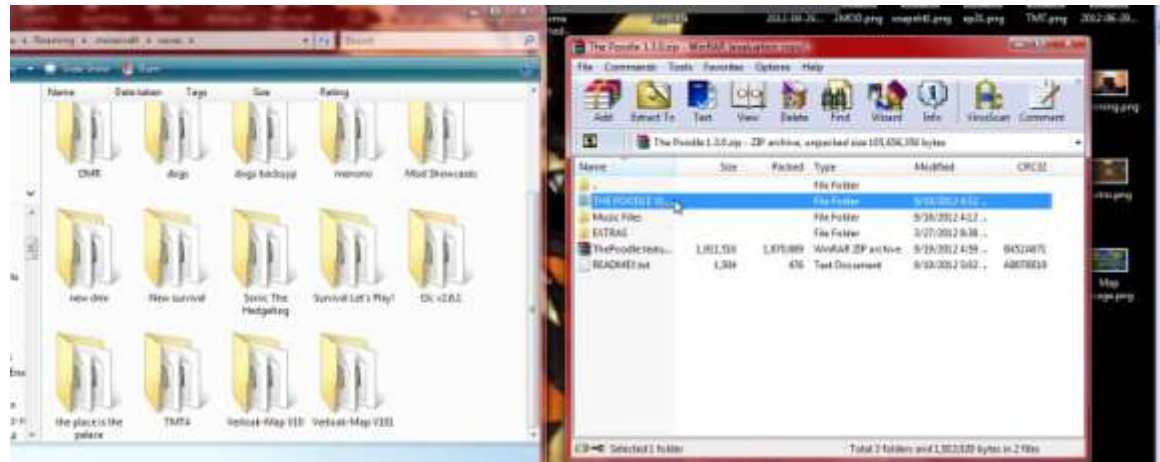

14. You should get a screen like this. Open the saves folder and minimize the window.

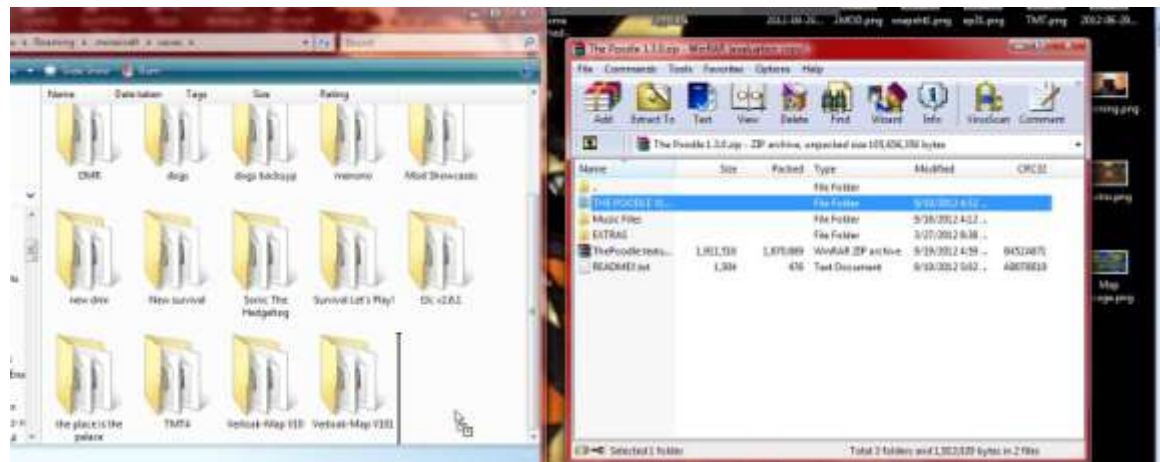

15. Remember the screen from step 12? Restore or maximize that screen. Re-open the saves folder from the last step and place it so you can see both windows. Drag the file named “THE POODLE V1.3.0 (Compatible with 1.3.2)” into an empty space in the saves folder.

16. In the "Saves" Menu, click the blue back button in the top left corner once. Open the folder in the .minecraft folder labeled "texturepacks".
17. Drag the file labeled "ThePoodle texturepack" from the "The Poodle 1.3.0" file into the texture packs folder. (Just like in step 15, just different folders and files!)
18. Close the "texturepacks" folder completely. Read the "README!!.txt" file.
19. Open minecraft and activate the new texture pack.
20. Open The Poodle in single player. It may have a different title but it should be: THE POODLE V1.3.0 (Compatible with 1.3.2)
21. Read the rules and notes, use the music (Just not the last one!), invite up to 3 other friends, and Enjoy!
